

Hot Melt Repair Service

Melter Swap Program

This month we are highlighting our
Melter Swap Program.

Call us today and exchange your old used melter for a refurbished one. We ship you the replacement melter of your choice.

You ship us your dirty, used, clogged or not working melter.
You will not be disappointed with our high quality refurbished melters!

- First, we test all components of the equipment before disassembly.
- Test all sensors and check wiring.
- Test heaters and other electrical components.
- Test pump and output.
- We disassemble the equipment and start from the ground up.
- Once disassemble, we clean the equipment part by part.
- We then replace all wear parts and any damaged components.
- New RTD's and Thermostats are installed.
- Damaged wiring is replaced and relabeled.
- All insulation is replaced with new.
- All sheet metal panels are painted or powder coated.
- Tanks are burnt off and re-coated with a high quality non stick material.
- Screws, nuts, bolts and fittings are replaced with new.
- All seals and O-rings are replaced with new.
- Machines are then tested with your adhesive.
- Gun and hose cordsets are cleaned.
- Damaged pins and sockets are replaced with new.

Stop rebuilding your machines part by expensive part. Remove your problematic, old Nordson melter and replace it with a refurbished one the same day.

Our machines carry a full 1 year warranty!

Prices start as low as \$1995.00.
Call today for prices and availability!
